

Dear Parents and Caregiver,

WEEK 10, UPDATE

Franklin Public School remains open for staff to provide online learning for all students along with paper packages of work.

If you require physical packages of work for your child, please call into the school office.

SOCIAL DISTANCING is important, so please allow space when entering.

Completed work can also be handed in at the office for marking. Please ensure the students name is on their work and this can be placed in the marked tub outside the office.

The purpose of the current situation is related to social distancing. I would like to reinforce with you that limited social contact is advised for all. This relates to people being in public spaces such as the local parks, skateparks etc. We encourage families to limit social contact to decrease the chance of infection.

Keeping distance and regular hand washing is encouraged.

Schools will have limited staff on site in the coming week to support their own health and wellbeing. Please contact the school **by phone** if you require assistance and support. These are very challenging times for families so Miss Handley will be available on Tuesday if you would like a chat on the phone, along with Mrs Garnham our School Counsellor.

Please stay connected to the Franklin Skoolbag App along with the Franklin Facebook page, as staff will be continuing to update online learning and sending out some family learning challenges. Mr Reddy and Mr Crane are at school today and tomorrow to support families in accessing online learning. Please call 69471533 to speak to staff for support.

We understand your frustration in this difficult and everchanging world. Please stay in contact online and by phone for updates

Sincerely

Carmel Stuckey
Principal
